Olivia,  
Optometrist, foodie and cribbage queen.

Home. It's where we live. It's the feeling we get from freshly folded laundry in our bedroom. It's playing the piano and singing with friends and it's shared moments over dinner with family. It's feeling healthy, eating well and enjoying the community we savour with other great people. It's looking forward to a little exercise and some laughter at the lounge afterwards.

# News from the Friends of Nose Hill

by Anne Burke

Some internet sources clearly recommend biking on non-designated trails on the slopes of Nose Hill up to the plateau. Many of the "Trail Fork's" paths do match the designated paths but there are several other areas where they venture into protected areas, in order to make their route join up to official paths. The Trail and Pathway Plan and the Parks and Pathway bylaw both enforce staying on the official routes in order to protect wildlife and habitat. There are maps at the Nose Hill Park entrances to help guide park users.

The Shaganappi Trail is part of Calgary's carpool lane (High Occupancy Vehicles) network in the City's Transportation Plan. The plan calls for Shaganappi Trail to be widened sometime in the future, from 4 to 6 lanes. This is of importance to Friends of Nose Hill Society as it will affect wildlife. There is the tunnel under Shaganappi Trail in Edgemont and it is important that any road changes do not unduly disrupt their routes. Also increased traffic could have implications for wildlife too. Commentary provided by Friends of Nose Hill Society about the long-term plan might reference the approach the City is taking with biodiversity conservation, as in Our BiodiverCity, Calgary's 10-year biodiversity strategic plan.

For more information regarding The University of Calgary Community Forum on Calgary: City of Animals, go to [www.cityofcalgary.com/cityofanimals](http://www.cityofcalgary.com/cityofanimals). "We will be hosting community response, anything from a sentence to a few paragraphs." The topics are below.

- Wildlife maintains biodiversity but some pose risks to humans and pets, so how can wildlife and human animals co-flourish?
- What is our relationship and how do we manage ourselves (do we leave places just for wildlife)?
- What policies are needed in the city; ethics to guide us; and are there circumstances when we silence a song dog (coyote)?
- Should residents be permitted to keep livestock in the city (which, why or why not)?
- Should animals be used for entertainment?

The annual progress report from the BiodiverCity Advisory Committee was approved by City Council after the Community and Protective Services Committee meeting. The group held 6 meetings, 10 subcommittee meetings, a workshop, and produced a work plan. Some city-wide projects are habit restoration in existing parks, biodiversity in planning, management, and other city initiatives; conservation priorities, and data sharing.

There are 150 community associations in Calgary with more than 20,000 volunteers involved, making it the largest collective volunteer movement in the city! Community associations come in all shapes and sizes, are run by your neighbours, offer you endless opportunities, bring you together as a community, and are dedicated to addressing local issues and ensuring you love where you live. They can be the anchor for community life, but they need support to effectively operate in today's competitive not-for-profit world. The Federation of Calgary Communities is that support organization.

This golf tournament will help raise funds for the Federation of Calgary Communities to continue providing programs and services that help community associations build capacity, support and mobilize residents, be on the front lines of important issues in their community, and improve neighbourhood life in Calgary.

Happy Canada Day! Throughout the summer months, The City of Calgary will be making numerous community improvements throughout Ward 2. Some of these projects include new enhanced crosswalks, road repairs and parks projects. As always, please feel free to contact our office via [www.joemagliocca.com](http://www.joemagliocca.com) and send us a webmail on your priorities, opinions and any other suggestions you have to improve our community. One issue that I have been receiving a lot of feedback on has been the fees for the new Green Cart Program. The Green Cart Program fees were approved at council on May 30<sup>th</sup>, 2016. I voted against the fees for this program as I believe that there could be greater efficiencies found within the program and that there are other options available to finance this program. I do support the concept of the Green Cart Program and increased waste diversion. Our current waste facilities are reaching their capacity and the cost to taxpayers to acquire new waste management facilities or export waste to other municipalities would be significant. It is estimated that the cost of a new waste management facility would be in the hundreds of millions of dollars. That is why waste diversion is crucial to reduce this type of cost on the taxpayer. However, I believe that the Green Cart Program could have been more flexible, more affordable and designed to be tailored to the specific needs of Calgarians. For more information on this program see: [www.calgary.ca/greencart](http://www.calgary.ca/greencart).
