The holidays can be stressful. We can help!

The Calgary NW ECD (Early Childhood Development) Coalitions are hosting an evening aimed at helping you, the parent, have a happy low-stress holiday season. **Managing the Holidays**, is a free workshop being held on Monday November 14th from 6:30-8:30pm at the Silver Springs Community Centre. Many of us put too much pressure on ourselves over the holidays, so come and learn how to refocus and help everyone enjoy this time of year. Child care is provided. Please visit www.Eventbrite.ca for more details and to register today as space is limited.

The Calgary NW ECD Coalitions consist of three coalitions who have joined forces with parents, community members, organizations and professionals, who are all working together to better the lives of young children and their families. We work hard to support five important developmental areas for children – Social Competence, Emotional Maturity, Language & Thinking Skills, Physical Health & Well-being, and Communication Skills & General Knowledge. We are always looking for interested parties to join our coalitions.

If you are passionate about children and their future, and would like more information about the Calgary NW ECD Coalitions, or if you have any questions, please email us at: ncecm@weconnectyou.ca.

Gardening by the phases of the moon

November 7 First Quarter (waxing)
Moonlight is strong, encouraging leaf growth. It is a good time for planting, especially two days before the full moon. Take cuttings from plants you wish to propagate. Fertilize as close to the full moon as possible.

November 14 Full Moon (waning)
As the moon wanes, the energy is drawing down. Strong gravitational pull but moonlight is decreasing putting energy into the roots.

November 21 Last Quarter (waning)
Decreased gravitational pull and moonlight. A resting period. Take cuttings from plants you wish to propagate. Dry herbs, flowers and fruit. If you want to control growth or encourage rooting, perform the necessary activities during the waning moon.

November 29 New Moon (waxing)
Increasing moonlight, lunar gravity pulls water up encouraging plant growth and proliferation. Grafting, transplanting, re-potting, and watering. Gather herbs used for essential oils. Oil content is more concentrated at this time.

News from the Friends of Nose Hill

by Anne Burke

Our annual general meeting is on Wed. Nov. 16 at Triwood Community Centre NW and the public portion begins at 7:30 p.m. Our guest speaker John McFaul will offer a power point of Nose Hill Flora with an introduction to the City BiodiverCity 10-year strategic plan. John was appointed by City Council as a member of the Biodiversity Advisory Committee and is a professional naturalist, who has been leading nature walks and hikes for 30 years. From 1986-2003, he worked for City of Calgary Parks as a naturalist for the Inglewood Bird Sanctuary. He received the Loran L. Goulden Award from the Federation of Alberta Naturalists. John is a professional interpreter with the Interpretive Guides Association. For more details you can go to our website at www.fonhs.org.

Calgary has been called "Sandstone City" because it is a key component of many heritage buildings, including the old City Hall. Rather than importing the material, City Council approved a notice of motion to reintroduce mining within the city lim-

its, at Edworthy Park and/or the former John A. Lewis Quarry site. A scoping study will return to City Council about the feasibility of reactivating small-scale quarrying sites.

When news of the motion was published, Nose Hill Park was named as the second site. Council was already in session. As a result I wrote a letter opposing the plan, due to public safety issues, impact on wildlife, and damage to diversity. The Ward Councillor voted against the motion and said, "No one must touch Nose Hill". There was a re-commitment to preserving Nose Hill for future generations of Calgarians. The assistant to the motion mover confirmed, while there was no reference to Nose Hill Park, it is important to preserve and conserve nature across our city. Fortunately, the second site is actually in the West Creek Valley, well outside the Park.

City Hall exhibited "Calgary Goes to the Dogs: A History of Dogs and Dog Licenses. In 1885, there were only 100 dog tags; now there are 100,000. There were no leash bylaws or fenced-in backyards. We have the Responsible Pet Ownership Bylaw and there are estimated to be 150 public off-leash areas. This accounts for 20% of park spaces in Calgary (1250 hectares).

Nose Hill is a popular park for walking dogs, in part because some communities do not have their own off leash areas. The pathways on the escarpment are on-leash areas, while the multi-use plateau (top of the hill) is off-leash.

HOME GARDENING WITH BARBARA

A ROSE IS A ROSE

Barbara Shorrock

We don't have a number for how many gardeners in Calgary grow roses, but Lois Hole tells us that 4 out of 5 in England do, where the rose is the national flower. There is enormous variety in the *Rosa* genus, with many new varieties being developed every year across the world. Here in Calgary, we have our own particular challenges with altitude, short growing season, Chinnooks, periods of drought and snow possible every month. Nevertheless, roses are hugely popular and many thrive in our gardens, just like their owners (or servants, if you choose to care for the more tender types). If you look on book store shelves, you will find volumes of books on how to choose, how to care for, how to master the art of rose growing. Beware the lovely picture-laden tomes written for other climates – pretty to look at but impossible here. For the purposes of this article, we will talk about only those roses that can be grown successfully in Calgary.

Hardy roses can survive our winter on their own without extra work by the gardener. They are tough. Size-wise, they vary from miniature and ground cover types only a few inches tall to great shrubs, climbers, hedges and every size in between. The flowers themselves can be single (12 petals or less), semi-double (13-20 petals) or double (20 or more petals). Colours vary from pure white through all the pinks and reds to peach and yellow. Some of them, like Morden Sunrise, have a range of colour in each bloom. They are most often grown on their own root-stock.

Most "Old Garden Roses" bloom only once per year, but within that three or four week period produce as many blooms as others who bloom for months. Even though labelled "hardy", it can be a good idea to mulch them in the fall as if they were tender.

"Parkland Roses" are bred specifically for Canadian prairie conditions at Morden, Manitoba. They are extremely hardy and most bloom all summer long. Anything with "Morden" in its name is a Parkland rose.

"Explorer Roses" were created by Agriculture Canada and are named for Canadian explorers, a particularly tough and hardy breed of men. These modern shrubs are crosses of *Rosa Rugosa* or *Rosa Kordezi*. John Cabot, for example, will grow up to 7 feet tall, and blooms until stopped by frost.

"Canadian Artists" is the newest series of hardy roses, developed in Canada and named in celebration of Canadian artists. They are bred to be exceptionally hardy, reliable, and disease resistant. Look for names like Emily Carr and Oscar Peterson.

Tender roses need more help from the Calgary gardener. Briefly, you must mulch them in the fall, and make an effort to cover them with snow if Mother Nature is stingy throughout the winter. This category includes Hybrid Teas, Floribundas, Grandifloras, English roses, Miniatures and most grafted roses. The serious rose grower may go so far as to dig them up and bury them in a trench in an empty bed for protection, but a good layer of peat moss and something to keep it in place, like black soil or old carpet should be effective. Styrofoam boxes and insulated tarps also work. If your roses are in pots, you can move them into an insulated heated garage, remembering to water them from time to time as they rest. Hybrid Teas are the darlings of rose society competitions, but don't always make a grand show in the garden. Floribundas give a bouquet on every branch. Grandifloras are the best of the Hybrid Tea and Floribunda, providing long-stemmed clusters that repeat and repeat.

There you have it – we are spoiled for choice. Calgary has an enthusiastic Rose Society, with knowledgeable members who would love to help you.

Barbara Shorrock is a retired realtor, gardener, writer, reader, and traveler. She can be found most first Wednesdays at the Queensland Garden Club in Queensland.

Ask Charles

My real estate professional told me there is a standard rate of commission in Alberta, is that true?

It depends what they mean by "standard". There is no legislative requirement or governing body that specifies the commission rate an authorized industry professional can or will charge.

The fact is, commission is something you can negotiate with your real estate professional. Some real estate professionals aren't willing to negotiate their commission while others are. That's their right. As a buyer or seller, you have the right to work with someone who charges a commission that you're comfortable with.

Before choosing a real estate professional, you'll likely want to compare the services and fees of a few real estate professionals. These interviews can help you understand the range of commission rates available, and the services provided at the various rates.

Typically, professionals calculate commissions by:

- a percentage of the sale price
- a flat fee or schedule of flat fees
- a fee for service
- a combination including any of these

Goods and Services Tax (GST) applies to real estate fees, as they are a "service."

When you're signing an agreement to work with a real estate professional, make sure you understand the commission arrangements. The service agreement you sign is a legal document and it's binding. If you don't understand something in it or you don't agree with something, don't sign. Seek legal advice or find a different real estate professional to work with.

While some businesses or companies may have specific commission structures, extensive changes within the Canadian real estate industry in recent years means there isn't a standard commission rate.

"Ask Charles" is a monthly question and answer column by Charles Stevenson, Director of Professional Standards with the Real Estate Council of Alberta (RECA). RECA is the independent, non-government agency responsible for the regulation of Alberta's real estate industry. We license, govern, and set the standards of practice for all real estate, mortgage brokerage, and real estate appraisal professionals in Alberta. To submit a question, email askcharles@reca.ca.

The Red Crossbill

By J.G. Turner
 Photo by Andy Reago
 & Chrissy McClarren

The Red Crossbill is a stocky finch with a heavy head and a short, notched tail. Males are reddish-scarlet or reddish-yellow except for their dark wings and tail while females are olive-grey to greenish yellow with plain dark wings. This songbird is common in the mountain and foothills regions of Alberta year round and it is considered a global species. The Red Crossbill's range is hard to define and its population is hard to monitor because their movements are irregular and based on food availability.

Fun Facts:

- The tips of its large bill are crossed; an adaptation for removing seeds from tight closed cones.
- The Red Crossbill's biting muscles are stronger than the muscles to open the bill so it places the tips of its slightly open bill under a cone scale and then bites down.
- You can spot this songbird by their undulating (wave-like) flight, which is even noticeable when they are flying at great heights
- Red Crossbills are considered irregular breeders because they can breed whenever and wherever they can find a large crop of cones, even during the winter
- Because of this irregular breeding, the timeframes for the Red Crossbill's lifecycle varies more than most North American songbirds. For example, juveniles hatched during the summer molt only once (between late summer and late autumn) whereas juveniles hatched from late winter to early spring molt twice (about three and a half months after hatching and again during the main summer molt period).
- Because of their dependence on food supply, Red Crossbills may occupy an area in huge numbers and then disappear for long periods of time (this behaviour can sometimes be called 'irruptive')
- These birds can often be heard but rarely do they make

themselves visible
 • Red Crossbills will come to feeders to eat niger and small seeds but the best way to tempt this elusive bird is to allow them to take sunflower seeds directly from the sunflower heads.

If you find an injured or orphaned wild bird or animal in distress, please contact the Calgary Wildlife Rehabilitation Society hotline at 403-239-2488 for tips, instructions and advice, or visit our website at www.calgarywildlife.org for more information.

CCSD BOARD OF TRUSTEES

Website: www.cssd.ab.ca/board-of-trustees • Email: trustees@cssd.ab.ca

Learn more about your Calgary Catholic School District Board of Trustees!

Calgary Catholic School District (CCSD) has seven trustees that work together for the whole district, with each representing wards in Calgary and the surrounding area. Cheryl Low is currently serving as board chair and Margaret Belcourt is our vice-chair. The Board of Trustees sets the direction of the school district through governance. It is the role of trustees to lead with inclusion; to understand the needs of our community; to be informed in our decision-making; and to serve our stakeholders by providing an opportunity for success for each and every student.

School councils are an important communication link to the Board of Trustees, as they represent school communities throughout the district. Councils are established in all schools and serve as a vehicle for parents/legal guardians, principals and teachers to meet and work together towards common goals – resulting in a more vibrant and effective school community. All parents/legal guardians with students attending school are members of their local school council and are encouraged to participate in council activities.

Parent and Trustee Forums are held annually in November, January and March. More information can be found on the CCSD website (www.cssd.ab.ca) under Parents/School Council. These forums provide an opportunity for the Board of Trustees to meet with parents, to share information and to gain valuable insights that support board decision-making and advocacy for our students. Topics range from budget and district priorities to current issues such as international travel, the Modernized Municipal Government Act (MMGA) and City Charters.

The Board of Trustees recognizes the importance of parental voice in education and provides a district membership to Alberta School Councils Association (ASCA). ASCA is the provincial association representing parents on school council and brings the parental perspective to government and education organizations in Alberta.

Trustees rely on school councils to bring them critical perspectives about education, an individual school's needs and community concerns. Each school council brings a distinct voice and broad representation to the dialogue on education. Through this engagement, the Board of Trustees can share information and gain valuable insights that support board decision-making and advocacy for our students. To learn more or get involved in school council, contact your child's school principal.

CALGARY BOARD OF EDUCATION BOARD OF TRUSTEES

Website: <http://www.cbe.ab.ca> - Email: boardoftrustees@cbe.ab.ca

The Board of Trustees is excited to announce a new award that recognizes CBE alumni who have made a difference, and we need your help to find these outstanding individuals.

The CBE Legacy Award celebrates public education. It will shine a spotlight on former students who live our beliefs - that a strong public education system is the foundation of our society, and the legacy of learning we create makes a world of difference for all of us.

Our former students positively impact our communities, our country and our world. Legacy Award recipients will embody the foundation they received during their education and represent the legacy of the CBE: preparing students for life, work and inspiring life-long learning.

Our alumni are leaders, entrepreneurs and difference-makers. They are artists, trail-blazers and dedicated volunteers. We want to hear their stories and celebrate their success.

We expect to present the CBE Legacy Award several times a year at public board meetings, with the first award presented this month. All award nominations will be reviewed and award recipients selected by the CBE Legacy Award Committee.

Recipients must:

- Be an alumnus of, or have attended, a CBE School.
- Be 18 years of age or older at the time of nomination.
- Exemplify at least one or more of the CBE Results:

Mission: has used high school as a foundation for continuous learning and success in life and work.

Academics: possesses the knowledge, skills and attitude required for academic success, and is effectively prepared for life, work and further learning.

Citizenship: has been a responsible citizen who is an informed and involved member of his/her community - locally, nationally, globally.

Character: possesses the character to do what is right, act morally with wisdom, and balance individual concerns with the rights and needs of others.

Personal Development: has acquired the skills, attitude and knowledge to achieve his or her highest potential.

Nominations must include a (maximum) 500-word statement of support.

To nominate an outstanding CBE alumnus, or for more information about the Legacy Award, please visit the CBE website at <http://cbe.ab.ca/about-us/board-of-trustees/Pages/legacy-award.aspx>.

On September 25, an additional southbound lane was added onto the Shaganappi Trail Bridge over Stoney Trail. The purpose of the additional lane is to help with traffic congestion during the morning rush hour. So far, I have heard and observed that this enhancement has made a significant improvement in reducing traffic congestion. The City of Calgary has also adjusted the traffic light timing to allow for improved traffic flow on Shaganappi Trail south of the Stoney Trail interchange.

City of Calgary Crews are keeping an eye on the forecast all winter long, preparing roads with anti-icing solution before the snow falls, and maintaining City streets as soon as snowflakes hit the ground. Stay informed during every snowfall by following @yyctransport on Twitter and downloading the Road Conditions App for frequent updates. You can also see where crews are plowing on the live map at Calgary.ca/RoadConditions.

After each snowfall, Roads crews follow a priority clearing system called the Seven Day Plan:

- Priority 1 routes, which carry more than 20,000 vehicles per day, are cleared to bare pavement within 24 hours after the snow stops falling.
- Priority 2 routes, which carry between 5,000 and 19,000 vehicles per day, are cleared within 48 hours after snowfall has stopped.
- Playground zones, designated hills, and residential streets on Residential roadways are cleared on Days 3-7. These roads are flat-bladed, which means snow is packed down so it is easier to drive on, and ruts are removed.

For more information on snow and ice control, including FAQs, snow route parking information, and free sand and gravel locations, visit Calgary.ca/snow.

Joe's Tip:

Please take a moment on November 11th to remember the sacrifices made by our veterans for the freedom that we enjoy today.
