Insect Trivia

Most knowledge about 3D vision has come from vertebrates, however, a team from Newcastle University, UK publishing in *Scientific Reports*, confirm that the praying mantis, an invertebrate, does indeed use stereopsis or 3D perception for hunting.

It has been over 100 days since I was appointed Minister of Veterans Affairs and Associate Minister of National Defence. Each and every day I am honoured and proud to serve those who wear—or who have worn—our nation's uniform.

The opportunity to work with my caucus colleagues from across Canada is rewarding, and being a strong voice for Calgary and Alberta at the cabinet table is a tremendous privilege and responsibility that I do not take lightly.

The Prime Minister has given me an aggressive mandate, one that I plan to fulfill through stronger relationships with veterans and the organizations that represent them.

During my first days, I participated in a number of Veterans' Week activities, including Remembrance Day ceremonies in Ottawa. This special day was humbling and concluded a week of learning and listening. It reconfirmed my commitment to ensuring that we get Veterans the care they need, when and where they need it.

Within the first month, I travelled across the country to engage with Veterans and Veterans' organizations, and held my first Veterans' Stakeholder Summit in Ottawa in December. Next, I travelled to Poland and Ukraine to meet our Canadian Armed Forces troops during the holidays and to thank them for their service on behalf of all Canadians.

Veterans will once again be able to access services in offices closed in recent years. And, we have already rehired more than 175 front-line staff to provide more support to Veterans across Canada.

I know that times are tough for Alberta and Canada. In the first 100 days as a government, we have quickly begun work on key campaign promises that I believe will make a real difference in the lives of Canadians.

We have already reduced taxes to the middle class. This will put more money in to 9 out of every 10 Canadian pockets.

We have implemented a consultation process for pipeline projects that allows for industry, communities, first nations and people who are concerned about the environment to take part. I truly believe we are on a path to build public trust in our approach so that we can move forward in a thoughtful manner that will see success for our industry in the long run.

The Prime Minister confirmed that \$700 million in Infrastructure funds would start flowing to Alberta in the weeks ahead. Those investments in projects identified by our Provincial partners and their municipal partners will create thousands of jobs and generate economic benefits for our great province.

My first 100 days have been exciting and I look forward to achieving much more in the future. My door, and my mind, will always remain open to the input and ideas of Canadians. We were elected on a mandate of real change, and part of that real change is a commitment to evidence based decisions and consultation with all of you.

Animal Trivia

Pet parrots can eat virtually any common "people-food" except for chocolate and avocados. Both of these are highly toxic to the parrot and can be fatal.
