Great News Publishing asked Calgary residents what they love about Canada and being Canadian.
Thank you to everyone who submitted their answers!

Join us every Sunday at 10:30am at Auburn House

We are a small congregation with many opportunities to be involved. Our service includes many great children's programs and events for adults and the whole family every month.

Our current sermon focuses on the story of the Bible from beginning to end, and is a great place to begin if you want to hear it for the first time, or simply want to go deeper in a familiar story.

Dear Great News Publishing,

Please **DO NOT** run my ad next month. My ad has been **WAY TOO EFFECTIVE**. My phone won't stop ringing with people saying they saw my ad in the newsletter. Now I need to hire more people to keep up with all my new customers! I'm amazed at how well this worked!

Thanks for all your help,
Sincerely,

The Grey Jay

Article by J.G. Turner

In 2016, the Royal Canadian Geographical Society asked Canadians to identify candidates for an 'official' bird for Canada, intending to lobby the Canadian Government to make the final choice official to mark Canada's 150th birthday in 2017. The winner was the Grey Jay which is also known as the Gray Jay, the Canada Jay, the Whiskey/Whiskey Jack, the Camp Robber, the Meat Hawk and the Moose Bird.

The Grey Jay is the only grey coloured Jay in North America and is 28 to 33 cm (11 – 13 in) from beak to tail's tip, has a 45 cm (18 in) wingspan and weighs about 70 g (21.5 oz). The Grey Jay is a large fluffy grey bird with white head, black nape, short black bill, and long tail but no head crest. It has variations in its colouring in different regions and is often visually confused with Northern and Loggerhead Shrikes. This mischievous bird lives year round in every province and territory of Canada, thriving in cold temperature extremes (up to -30 C). The Grey Jay is found in boreal regions from the tree limit in the far north through mountains and foothills, coniferous and mixed forests, bogs and fens, picnic and campsites across the country.

Fun Facts:

- The Grey Jay is a member of the Corvidae family of birds, along with other Jays, Crows, Magpies and Ravens. This is a highly intelligent group of birds known for their boisterousness, persistence and adaptability to the presence of humans in their environment. The Grey Jay is said to have the same "brain to body size ratio" as dolphins and chimpanzees!

- These birds are of the earliest nesters in Alberta, laying eggs as early as late February. This gives their young most of the year to learn to forage and store food for their first winter.
- Grey Jays are omnivores and eat seeds, scavenge carcasses (part of nature's clean up crew), and eat eggs and nestlings of other birds.
- Grey Jay cold weather adaptations include:
 - catching small chunks of food by covering it with their sticky saliva, and 'gluing' the food to tree trunks, twigs or conifer needle clusters. The Grey Jay remembers where it stores this food!
 - allowing solar radiation to penetrate their feathers while still keeping their insulating qualities; and
 - decreasing their body temperature at night.
- You may be able to attract the Grey Jay to your backyard feeder with suet, rolled oats, shelled sunflower seeds, or dry dog and cat food.

If you find an injured or orphaned wild bird or animal, please contact the Calgary Wildlife Rehabilitation Society at 403-239-2488 for tips, instructions and advice, or look at the website at www.calgarywildlife.org for more information.

Green Carts are coming this summer

Starting this June, green carts will be rolled out to all households for food and yard waste collection. Here are some details on the rollout.

Green cart collection start dates

Green carts will be rolled out by quadrant. Once all residents in a quadrant have their carts, collection will begin as follows:

Quadrant	Cart delivery	Weekly green cart collection starts:
SW	June 5 - July 15	Week of July 17
NW	July 3 - August 12	Week of August 14
NE	August 7 - September 2	Week of September 4
SE	August 28 - September 30	Week of October 2

Three things to do when your cart arrives

1. Bring your cart up to your home.

Carts will be delivered to the front of your home. Bring your cart up to your home and store it in a safe place (e.g. garage, against the side of your house or back fence).

2. Look inside the green cart.

Everything you need to get started is inside the cart. This includes:

- Kitchen pail and sample compostable bags.
- Sample paper yard waste bags for extra yard waste that doesn't fit inside the cart.
- Instruction guide and collection schedule.

3. Consult your collection schedule.

The collection schedule inside your cart explains when green cart collection starts in your quadrant along with your new collection days and schedule. You can also find out your collection days and sign up for free automated reminders at calgary.ca/collection.

To learn more, visit calgary.ca/greencart.

The War on Our Children

My name is Noel Hershfield and I am a specialist in Internal Medicine in Calgary.

I am concerned about the current epidemic of drug addiction in our youth. It is estimated that 48% of the population of this country are consuming cannabis or marijuana. This drug is to be legalized by our government next year. It is not an innocuous substance. It is a very psychoactive drug, especially in the young. The developing brain is very susceptible to the effects of this substance, and other psychoactive substances such as narcotics which are over prescribed by the medical profession. On the street, there are hallucinogenic such as LSD, stimulants such as ecstasy (which is really amphetamine), cocaine, fentanyl, and even pink remover which is inhaled.

In fact, any drug, either prescribed or taken illegally can cause side effects and some can be deadly.

Over 400 deaths have been reported in the Province of Alberta due to overdose of narcotics. Many have been admitted to hospitals with serious problems due to these substances. Our emergency rooms are now being flooded with young people suffering from the side effects of cannabis and other substances which are frequently mixed. It is stated that 400 million young people are consuming these drugs all over the world and it is a worldwide epidemic, and the current generation, according to those that are aware of the problem, is doomed! The next generation is now the target of these drug dealers. The problem is paramount in the Western world.

There is evidence that education of young people beginning at age 15, *may* help to reduce the number of children who are taking these substances. There is also evidence in this country that between 15 and 20% of young people starting at age 15, or even lower, are now experimenting or imbibing drugs.

If this was an epidemic such as AIDS, the scientific and medical community would be investigating the cause, prevention, and the treatment. In this situation, no one, including the medical profession, youth organizations, or the government has an answer for the flood of drugs that are entering this country and being produced in this country. It is a \$600 billion business.

I recently returned from a course in the United States on how to *attempt* to educate the young about the truth about drugs.

I am available to educate our children in our schools, community centers, soccer teams, and anywhere where young people congregate.

The idea is not to preach, but to teach. At least then our children will be able to make an informed choice as to whether or not they will take part in this dangerous activity.

YEEHAW!

The first Calgary Stampede was held in 1912, but was at that time known as Frontier Days and Cowboy Championships. We've come a long way to become, "The greatest outdoor show on Earth!"

What You Need to Know to Get a Safe Ride Home from This Year's Stampede

Whether you are using a taxi or rideshare company—such as Uber or Tapp Car—during Stampede, there are some important safety tips to keep top of mind. Just like taxis, rideshare companies are regulated by The City of Calgary and have to meet City safety standards before drivers can take passengers. However, there are some important differences between taxi and ride-share companies:

- Rideshare drivers are not allowed to pick up people who hail them on the street or seek out business by approaching potential customers.
- All trips must be booked through a rideshare company app.

When you book your trip, make sure to look at the verification information the ride share app automatically sends you *before* you get in the vehicle. This information will safeguard you against getting into a vehicle with a potentially unsafe, unlicensed driver. The app includes:

- A photo of the driver
- The licence plate number, and the make and model of the vehicle
- Real time GPS tracking, which enables you to track the vehicle on route to your location

If you are street-hailing a taxi, it's just as important to verify that the taxi is legitimate before you get in. Make sure the driver and vehicle are both licensed. Check for a taxi plate on the rear bumper of the vehicle to verify that it is a licensed taxi. The driver's ID should be posted in a visible location, typically on the driver's visor. If you are not able to see it, you can ask to see it. Before you get into a taxi, take note of the taxi number, company and colour of the vehicle in case you need to track down lost items.

Taxi stands for Stampede – July 7 - 16

The City of Calgary is working closely with the taxi industry and the Calgary Stampede to provide increased access to taxis around Stampede Park and surrounding areas to accommodate Stampede visitors and bar patrons.

In addition to late night and permanent downtown taxi stands, four temporary stands have been set up near Stampede Park.

- Two all-hours taxi stands located at the South and North Entrances of Stampede Park operate throughout the day. The North Entrance is given priority to accessible taxi service as it provides the closest means of entering the Park.
- Two additional late-night temporary stands have been established on 12th Avenue and Macleod Trail SE. The late-night temporary taxi stands operate every night between the hours of 10 p.m. and 3 a.m.

These locations are marked with signs, and provide safe and easily accessible points for taxis to pick-up and drop-off customers.

Other designated taxi locations around the city
Taxi Hydrant Zones– identified with signs, and are located in various locations throughout downtown.

Late Night Taxi Stands – available to serve you between 10 p.m. and 3 a.m. on Thursday, Friday and Saturday nights. Conveniently located near restaurants, theatres and bars, these stands help Calgarians and visitors come and go safely from our city centre.

Calgary Transit – provides 24-hour CTrain service during the Stampede.

Other options – luxury sedans can be booked as a pre-arranged service. Costs are generally higher than a regular taxi. They cannot provide on-demand service. Always be diligent about checking ID information provided during booking before getting into the vehicle.

Remember, if you have any concerns about a taxi, rideshare, or limo service, contact the non-emergency line at 3-1-1. If you feel as though your safety is threatened, call 9-1-1.

Ask Charles

I want to buy a resale condominium, but I'm worried about rising fees and possible assessments. How can I ensure the condominium is a good one?

- current reserve fund study (5 years old or less) and 25-year reserve fund plan
- current operating budget and fee schedule
- current balance sheet
- registered bylaws

When buying a condominium, you can hire a professional to review your condominium documents. They can provide you with a summary of the documents, and identify areas about which you might have concerns. Reviewing condominium documents can uncover financial difficulties, bylaws you find unacceptable (for example, restrictions as to size, number, or type of pet), upcoming necessary maintenance, or even discussion in Board meeting minutes about water issues.

Even a healthy reserve fund and a review of condominium documents can't guarantee you won't have a special assessment or that your fees won't go up. In fact, you should expect your fees to go up a small amount each year, from factors such as inflation or rising utility costs. However, reviewing the condominium documents will give you a good idea of the health of your condominium, and if it's the right one for you.

"Ask Charles" is a monthly question and answer column by Charles Stevenson, Director of Professional Standards with the Real Estate Council of Alberta (RECA), www.reca.ca. RECA is the independent, non-government agency responsible for the regulation of Alberta's real estate industry. We license, govern, and set the standards of practice for all real estate, mortgage brokerage, and real estate appraisal professionals in Alberta. To submit a question, email askcharles@reca.ca.

Condominiums can be a great housing option, and with some due diligence, you can find one that is well suited to your needs, and a financially-sound purchase.

Condominium refers to a type of ownership that includes the individual ownership of a unit and shared ownership of common property with other unit owners. Condominiums can be apartment-style, townhouses, attached, or detached.

Condominium owners typically pay monthly condominium fees to cover their share of expenses for the common property, and some of this payment goes into the condominium corporation's reserve fund.

The reserve fund is used to pay for major capital repairs and replacements. All condominium corporations must have a reserve fund. As a buyer, you want a condominium corporation that has a healthy reserve fund because it reduces the likelihood of a special assessment. Special assessments occur when a condominium corporation has major work to do and there isn't enough money in the reserve fund. The corporation assesses an amount owing to the owner of each unit.

So how can you find out if the corporation you're thinking of buying into is a healthy one? A good place to start is a condominium document review.

Condominium documents relate to the operation of the condominium corporation, which you want to ensure is financially stable and well managed. Condominium documents include but are not limited to:

Standard & Poor's announced it is downgrading Alberta's credit rating yet again, this time by two notches, from AA to A+. While this latest downgrade comes as no surprise, considering the NDP government's complete and total mismanagement of our economy and finances, we are incredibly concerned about the consequences that higher interest rates and skyrocketing debt will have on our ability to fund vital public services in the future.

In the two short years since the NDP took office, this government has destroyed our sterling AAA credit rating, taken us from a \$1.1 billion surplus to an \$11 billion deficit, and put Alberta on track to owe an astonishing \$94 billion by 2020.

Our caucus has repeatedly called for modest spending restraint and each time has been met with fearmongering, hyperbole, and false choices from the NDP. The truth is that prioritizing frontline services, while exercising restraint in non-essential areas, will not lead to deep cuts or public sector layoffs. Nor will borrowing tens of billions on the backs of our children and grandchildren lead to economic recovery now or long-term prosperity in the future. We are disappointed to see this government continuously fail to make the tough choices Albertans sent them here to make.

Events and congratulations:

If market volatility is making you second-guess your investments strategy, contact me today for a no obligation, objective evaluation of your portfolio. An unbiased review can help you answer key questions including:

- Is your portfolio still on the right track?
- Are you taking too much risk in your portfolio?
- Which investments are likely to recover and which ones aren't?
