## PESKY SEAGULLS – DOG GULL PATROL PILOT PROGRAM

Please welcome CALLIE the Shetland Collie, CHANCE the Border Collie, BOWSER the Chocolate Lab and TIMBER the Australian Cattle Dog /Collie X who are our first dogs to join our seagull dog patrol canine volunteer team. You may have seen the dogs out on our beaches. Their role is to chase the seagulls off our beaches. In the last week or so we are having fewer gulls using our beaches. Thank you to our wonderful dog owners for volunteering and helping with our collective gull

deterrent program. It takes a community to maintain our community.

Some members of our Volunteer Dog Gull Patrol Team: From Left: TIMBER, BOWSER & CALLIE

A big thank you to you for not feeding the gulls and picking up all food when you visit our parks. Like our national parks, please enjoy your time at our parks and leave only foot prints in the sand.

## Operations and Social Committee Meetings

Our volunteer committee met September 9 to begin plans for this year's events and initiatives. We were pleased to welcome some new faces and have others take on new positions.

This year you can expect to enjoy many of your favourites such as our Beach Blaster, Movie Under the Stars, and our 3 on 3 Hockey Tournament. With new talents, come new ideas. We're excited to see where our new and most recent initiatives take us.

If you'd like to ensure that our Home Owner's Association continues to offer the many services and events we all enjoy, please join us at our monthly committee meetings. You'd be surprised at the talents you possess and how they can be used to bring people in the community together. We meet the second Monday of the month at the Beach Club, 8:00 pm.

To better understand each committee, please contact Social Committee Chairperson Evan Spencer [chairpersonsocialvc@mahoganyhoa.com](mailto:chairpersonsocialvc@mahoganyhoa.com) or Operations Committee Chairperson Chris Thurber [chairmanoperationsvc@mahoganyhoa.com](mailto:chairmanoperationsvc@mahoganyhoa.com).

The Mahogany HOA Facebook page is a more timely approach to keeping up-to-date with community events. If you're an active Facebook user, you'll appreciate being reminded of upcoming events and meetings, and being made aware of new start dates for programs at the beach club. Notice of the city-wide fire ban at the end of August is a prime example of how social media can be useful.

## Past Events

**3 on 3 Street Hockey Tournament (Battle of the Ball)**

Halloween events are the highlight this month with the Halloween Howl and the Ma-Zombie Run. Younger kids will enjoy the typical aspects of this holiday such as dressing up and collecting candy, while also partaking in some scary fun. Older children — ages 12-17 — will love working as a team to find keys to escape the zombie break-out.

## American Kestrel: Small Acrobatic Gliders

Article by Katie Fisher

Photo by Andrea Hunt

Gliding to the left and right, the American Kestrel keeps a sharp eye on the earth below for flickering blades of grass or the rustling of bushes. A member of the raptor family, the American Kestrel is easy to identify because it is the smallest of the North American falcons and the most colourful. Male and female Kestrels are dressed in a rusty red but only the males are garnished with a brilliant slate blue on their head and wings. They are easily spotted in open grassland areas, such as meadows and farmer's fields. They also can be seen in city areas and suburbs.

### Fun Facts:

- These raptors rely on abandoned Woodpecker holes, tree hollows and other empty cavities that are found in the environment to make their home.
- Your backyard could become a suitable home for the Kestrel but it won't be in a regular birdhouse. A nesting box, nailed to a tree, high above the yard and away from sources of noise could provide a suitable home for a feathered family.
- They may repay you by keeping pesky rodents out of your yard!
- Like many raptors, the American Kestrel hunts for insects such as grasshoppers, beetles and spiders as well as small vertebrate prey such as mice, voles,

shrews, songbirds and occasionally, frogs, snakes and small lizards.

- Some brave Kestrels have been spotted preying on larger creatures, such as red squirrels.
- One characteristic that gives the American Kestrel the upper hand on small prey is their ability to see ultraviolet light. This feature gives them the power to see urine trails created by small rodents and other creatures, leading them to their next meal.
- This raptor can also be the hunted: as the smallest falcon, they become easy prey to other raptors, such as Barn Owls, Goshawks and Red-tailed Hawks. Large reptiles such as rat snakes and corn snakes will also take Kestrels as prey.

When you are out on your next walk, keep an eye to the sky, you may just see the Kestrel gliding through the air or perched on a light post or telephone post. If you come across an injured American Kestrel, or any other wildlife in distress, please contact Calgary Wildlife Rehabilitation Society wildlife hotline at 403-239-2488.

### SAFE & SOUND

### Halloween Safety

Alberta Health Services EMS would like to remind parents and trick-or-treaters of some Halloween safety tips as October 31st approaches. Take some time to review these simple tips and reminders to help ensure your Halloween is a fun and safe night for everyone.

#### Trick-or-Treaters

- Remember: all regular pedestrian rules still apply. Be sure to cross the road at marked crosswalks, or well-lit corners only. It is safest to work your way up one side of the street, and then cross once to the other side.
- Stay away from houses that are not well lit. Do not accept rides from strangers, or enter any home you feel is unsafe.
- Let your parents know where you are going to be at all times (route) and advise them if you will be late returning.

#### Parents

- Be certain that young trick-or-treaters are accompanied by an adult. Older children should stay in groups.
- Pre-determine boundaries to trick-or-treat within, and establish a firm time to return home.
- Advise children not to eat anything until they return home. Dispose of any items that appear to have been tampered with, or that are not properly wrapped.

#### Costumes

- Choose bright colored costumes that are highly visible. Adding reflective tape to costumes further increases visibility.
- Consider sending your children with a flashlight for additional safety and increased visibility.
- When purchasing, or making costumes, look for materials and accessories that are labeled flame-resistant.
- All costume accessories, such as sticks, rods, or wands, should be soft and flexible, with no sharp edges.
- Consider using hypoallergenic make-up kits instead of masks that may impair breathing, or vision.
- Be sure costumes are loose enough to be worn over warm clothing, but not so long that they become a tripping hazard. Costumes should not be longer than your child's ankles.
- Ensure your child is wearing adequate foot wear that takes into consideration weather conditions and walking.

### FISH CREEK PARK EVENT

### If You Walk It, Then You Better Put a Leash On It

by Shalane Friesen, Environmental Educator for Alberta Parks and proud puppy owner

Walking your dog in Fish Creek Provincial Park has physical and psychological health benefits for you and your canine companion. In fact, recent studies show that families that own dogs are more likely to be engaged in physical activity together, increasing youth fitness and maintaining mobility for later in life. To ensure a pleasant park experience for all visitors, please keep your pet on-leash and under control at all times.

By keeping your dog under control, you can avoid costly visits to the vet. Off-leash dogs are more likely to encounter and harass wildlife in the park, and wild animals will defend themselves. When threatened, porcupine will shed barbed quills on contact and these are painful and expensive to remove. Coyotes may stalk small dogs or attack large breeds if they perceive your dog as a threat. Finally, skunks will try to deter your dog from attacking, and it is a smell your dog (and you!) will never forget. Wildlife generally keep their distance from humans, and by keeping your dog under control and on-leash, you can protect your pet from wildlife interactions.

By law, you must have your pet on-leash and all waste must be disposed of in the garbage bins. Always remember your doggy bags and deposit them in the garbage, not on the trails. Fines for violating these regulations range from \$115 to \$2,000. Off-leash pets may annoy or disturb other park users in their activities; if you wish to lose the leash, there are over 150 off-leash dog parks in Calgary. But, for a relaxing and peaceful walk with your dog, nothing beats a stroll through Fish Creek Provincial Park.

**REAL ESTATE COUNCIL OF ALBERTA**

**Ask Charles**

**My townhouse is listed for sale. There was a showing earlier today, and I found out those "buyers" just viewed my home to see it as a comparable for their own listing. Is that allowed?**

The short answer is, no, it shouldn't be.

When you list your property for sale, you expect that showings of your property are to potential buyers. Unless a buyer or the buyer's representative discloses it to you beforehand, any other reason for a showing is dishonest through omission.

Real estate professionals have a requirement to be honest with their clients and with third-parties. That means that a buyer's real estate professional has to be honest with you and your real estate professional.

It is reasonable for you to expect that buyers booking a viewing of your property are doing so with the potential for purchasing the property. If their reason is different, then it is reasonable for you to expect them, and their agent, to be up front about it.

No one wants to have to keep their house in show-home-ready condition, and vacate the premises for a showing unless there is real potential the buyers are interested in buying. This may be particularly true if you have a young family and leaving at the spur of the moment for last-minute showings or showings at bedtime are particularly inconvenient.

There are also things you can do – and discuss with your agent – to lower the likelihood of showings for ulterior purposes. You can ask your agent to not allow viewings from people who don't appear to be serious buyers. For example, this may mean your agent asks buyer's agents to only bring buyers who are pre-approved for a mortgage.

As the seller, you control the process buyers must go through to view your property. If you want to set specific times during which viewings are allowed, you can. If you want to only admit buyers who are pre-approved, you can. Ensure your agent writes those instructions in the listing.

Remember, though, sometimes buyers come when you're least expecting it – and any attempt to reduce showings or limit availability for showings may be detrimental to your listing.

In August, I organized a meeting with concerned Copperfield residents regarding a wetland that seemed to have dried up. Vesta Properties, Councillor Keating's office, and Alberta Environment were also in attendance. Notes from that meeting can be found on my Facebook page: RickFraserYYCSE. You can also request a copy of the notes by emailing Calgary.southeast@assembly.ab.ca

I had a concerned constituent visit my office about the Alberta Animal Protection Act. I put a call out to constituents for feedback and the message is clear, you'd like me to look at pursuing changes to the act. I have created a group attached to my Facebook page where I will be posting frequent updates: Alberta Animal Protection Act. I welcome constituents to join and follow my progress.

I empathize with parents upset about the Calgary Board of Education's new bus routes and scheduling. I ask that concerned constituents contact their school Trustee with feedback. You can also contact my office, so I can provide comments to the Government's Minister of Education.
