Now that is
some serious
Calgary soccer
pride.

AND WE'RE PROUD
TO BE IN THE GAME.

It's the start of another outdoor soccer season. And this year, it's fully public — the way it should be.

That's because Calgary council has asked your city workers to take over management and maintenance of the the Calgary Soccer Centre from private organizations.

And here's our commitment to you:

- A clean, efficient facility — where you feel comfortable taking your family.
- Saving you money — city council saw a public solution as the most cost effective; there will be no more spectator fees.
- A community asset — open and welcoming to clubs, players and families from across the city.

We think this is a pretty good game plan moving forward: Let's keep city recreation facilities public and working for all Calgary families.

IN & AROUND SCHOOLS
 Special activities in May for **École St. Cecilia School students**
 In May, all École St. Cecilia School students will participate in special activities and focus on the value of “caring”.
 The Marian Celebration will take place early in the month. The Marian Celebration, or May Crowning, is an event that recognizes Mary the Blessed Virgin as queen of heaven and earth and the importance of our own mothers as Mother’s Day approaches. We welcome Fr. Paul for our Pentecost Celebration later in May.
 Students will also participate in the NED Show that promotes a school culture of kindness, resiliency and excellence. The key takeaways from this event are for students to Never give up, Encourage others and Do your best.
 On the field trip front, Kindergarten students will visit Safety City to learn about the rules of the road, especially important as bike season approaches, and our Grade 1 students are off to the Leighton Art Centre, a non-profit art gallery and museum.
 École St. Cecilia School is a French Immersion Catholic Elementary School for children from Kindergarten to Grade 6. The school serves most communities south of Glenmore Trail and east of McLeod Trail.

Mapleridge Cooperative Preschool
 The children at Mapleridge Cooperative Preschool have been enjoying fun-filled spring activities and are making special gifts for Mother’s Day. This month our 4-year-old classes will be traveling to the Inglewood Bird Sanctuary to walk the trails of this amazing wildlife reserve. The 3-year-old class will be taking their first trip on the big yellow school bus to the zoo to partake in the preschool penguin program.
 All classes come to an end this month on May 26th and May 27th. We are busy planning the graduation ceremonies; congratulations children! The MCP year-end party will be held at Lake Bonavista on June 3rd and we are looking forward to enjoying our picnic at the beach. Thank you again to our lake sponsors!

YOUR COMMUNITY BUSINESS OF THE MONTH
Eaglequest Golf Course
 Located in the heart of Douglasdale, at the corner of Douglasdale Boulevard and Douglas Woods Drive, Eaglequest Golf Course is your source for family entertainment.
 Since opening in 1986, during the beginning stages of the community, we have been able to establish ourselves as a gathering spot for neighbors and friends. There are not many places where people can gather of any age and have a great time. Whether it is soaking up some sun on the patio, playing a round of golf, using your fancy feet for foot golf, or having a gathering in our banquet room, we cannot wait to welcome you and your friends and family.
 During the golf season we see many faces come through our doors every day! With a full 18-hole executive style layout and natural grass driving range, our course provides a great venue for your golf outing whether it is an afternoon with friends or your annual company tournament. Our ladies league has grown to over 500 women strong. Each member of the league has created a sense of belonging and every summer, 22 weeks seems to fly by and so many new friendships are made.
 As a parent you may be wishing for your young ones to enjoy the game of golf and experience the sport first hand. Look no further, we offer hands on summer camps with our CPGA certified golf pros. A full week learning the ins and outs while having the chance to practice on an actual golf course will have your children wanting to show you what they learned.
 When you hear the word ‘golf course’, one of the first ideas that may come to mind is that we are only open

seasonally. Well lucky for you, our lounge and banquet room are open YEAR ROUND to the public for some down time or a social gathering!
 Our banquet room is perfect for gatherings of all types, be it a wedding, an anniversary or a “just because” party. We have professional event staff ready to help you make your vision come true in the most beautiful and efficient way. We are able to work with you side by side and make an occasion special and stress free.
 Anyone is welcome to come visit Eaglequest Douglasdale, as we are completely open to the public. Our lounge is licensed to allow minors and we have ensured that our facility is family orientated. Take advantage of our Happy Hour Drink & Wing prices everyday from 4pm – 6pm. Contact our proshop to book our Tee Time & Dine deal on Friday, Saturday or Sunday evening!
 This summer, do not miss your chance to experience Eaglequest Douglasdale, a place in the community that quickly becomes a home away from home. Call us anytime at 403-279-7913 and we will be happy to meet any of your needs!

Citizen Dashboard

pilot gives Calgarians insight into City performance and Calgary's quality of life

The City of Calgary's Citizen Dashboard is an online tool that provides Calgarians with access to information about The City's performance and how City services contribute to Calgary's quality of life. Available at calgary.ca/citizendashboard, the tool displays performance measures and data using interactive graphs, charts and maps.

"The Dashboard provides citizens with easy access to City performance measures, provides explanations of what those measures mean and what we are doing to improve service," said Mac Logan, General Manager, Transportation and Chair of a committee designed to oversee and champion customer service and digital innovation at The City. "We look forward to hearing from Calgarians during the pilot as they explore the tool."

Powered by The City's Open Data Catalogue, the Citizen Dashboard pilot currently displays performance measures for:

- 311
- Transit Safety & Security
- Building Regulations
- Roads: Summer Maintenance
- Water Sustainability
- Calgary Transit Access
- Waste Management

Additional services and performance measures continue to be added on a regular basis.

Calgarians can check out the Citizen Dashboard and provide feedback at calgary.ca/citizendashboard.

How safe is your backyard fire pit?

Backyard fire pits are great places to gather and share good times in Calgary's summer months, but these great times can quickly become tragic if you aren't safe.

The City of Calgary has bylaw standards to help minimize some of the dangers of your backyard fire pit, or outdoor fireplace, wood burning oven or chimneys. The Calgary Fire Department also has a number of tips to help prevent anyone from getting hurt.

Safety tips and bylaw regulations

- Backyard fire pits should be built into the ground, on brick or stone, or in a fire-resistant container.
- Portable fire pits may be used on a deck as long as they sit on brick or stone, and not directly on your wooden deck.
- Fire pits must be at least two metres away from your property line, house, garage, or fence.
- Fire pits must not be under any trees, branches, plants or other materials that can catch fire.
- Always have a way to put out the fire close to your fire pit. Easy options are your watering hose or a bucket of water.
- All fires in your fire pit must be kept to a reasonable size; under 1 metre high and wide. This helps ensure the fire's embers, sparks or smoke do not harm anyone or cause a nuisance to neighbouring properties.
- All fires in your fire pit must be continually supervised.
- Fires may only be burned in fire pits from 10 a.m. to 1 a.m., unless prohibited in a fire ban.

Do not burn:

- Painted, treated or lumber containing glue or resin
- Wet, or green/fresh cut wood
- Yard waste (cut grass or leaves)
- Garbage
- Rubber
- Plastic
- Furniture

Always check www.calgary.ca/firebans to ensure no fire bans are in effect, which may caution against or forbid using fire pits. Remember, you can be fined from \$500 to \$5,000 for not following Calgary's fire pit bylaws (5M2004) or the instructions of fire bans. Learn more about Calgary fire pit safety and Bylaws by visiting calgary.ca and searching the term 'fire pits'.

Celebrate Neighbour Day on June 18

Do you miss the days when neighbours connected and got to know each other?

Held annually on the third Saturday of June, Neighbour Day is an opportunity for neighbours to come together in the form of a front yard barbecue, garden party, picnic, clean-up or afternoon tea in a local park to celebrate our strong community spirit in Calgary.

The idea is to meet your neighbours, make new friends, have fun and maybe work together on a project that benefits the entire community.

Make Saturday, June 18 the day you get to know your neighbours! Visit calgary.ca/neighbourday for ideas to help you celebrate.

EMS: Window & Balcony Safety

With the return of warmer weather, Emergency Medical Services (EMS) would like to remind parents and caregivers of an often overlooked hazard in the home – access to open windows. Every year, paramedics respond to emergencies where a child has fallen from an open window, often from the second floor. These can be avoided by following simple safety measures. Take the time to assess potential hazards in your home before a preventable fall occurs.

Windows and screens

- Prevent access to windows by moving furniture such as cribs, beds, stools, and change tables out from under them;
- Keep drapery cords out of children's reach. Wrap excess cord around cleats, or tie-downs to avoid a choking hazard;
- Remember: screens are not safety devices. They are designed to keep bugs out, not to keep children in.

Balconies

- Do not underestimate a child's ability to climb. Furniture and other items stored on balconies and decks can be used to climb resulting in falls over the railing;
- Ensure that your balcony railings are not more than 10 cm (4 inch) apart. This will eliminate access between the vertical bars of a balcony, or deck.

Further prevention tips

- Children aged one to four are at highest risk of falling from a window or balcony;
- Direct supervision of children is the single most effective way to prevent falls from windows and balconies;
- Install safety devices which limit the distance in which a window can open to a maximum of 10cm (4 inches);
- Ensure the safety device can be released quickly so the window can be used for escape in case of emergency.

EMS is proud to be a member of the **Partners Promoting Window and Balcony Safety**. Take time to assess your home for window and balcony hazards and eliminate the risks before a preventable fall occurs. www.windowssafety.ca.

Residents of partnered communities' pay 20% less for memberships than those who reside outside partnered communities. Phone: 403-278-7542 or see www.tricocentre.ca to find out more.

May at Trico Centre

Trico Centre for Family Wellness is a non-profit, community-owned and operated recreation facility. Our memberships are affordable and our programs are family-friendly. With a membership, you can work out in the fitness centre, take more than 70-drop-in fitness classes a week, use the gymnasium, skate, or play shinny, plus with a membership you get 20% off our fun, active registered programs.

Residents of communities partnered with Trico Centre (yours!) pay 20% less for a Trico Centre membership with presentation of a community association membership or payment of the Community Support Fee (which is sent to your community association.)

Pool Refurbishment

After 33 years in operation, Trico Centre's Aquatics Centre is undergoing a major refurbishment. This project will address lifecycle issues, improve health and safety components. **The target reopen date is August 15, 2016.** Check our Spring Summer Program Guide for **membership specials** and what to do at Trico while the pool is closed. We will be hosting a pool grand opening, so watch for details.

Registered Program for All Ages this Summer!

It might seem a bit early to think about summer, but we want you to know that we have more registered summer programs than we have ever had before. Adult fitness, adult small group training, older adult programs, parent & tot, preschool, children and youth. Register now for these new-to-summer programs plus check out summer day camps, 3-14 yrs, weekly or daily, full day, half, day, pre and post care.

Spring Programs for Adults

- May start adult fitness: Fit 101 and Strong is the New Skinny: Part 2
- More than 70 drop-in fitness classes every week. Free for members, drop-in fee for non-members. Many new land-based classes added during pool closure. See the Drop-In Fitness schedule at www.tricocentre.ca under the Schedules tab or pick up a copy at Guest Services.
- Adult Wellness Workshops in April: Walking Pol Clinic (April 12, 1:30-3:30pm) and Yoga for Scoliosis (April 17, 1-3pm.)

Spring Health for Older Adults

- Bone Builders: Weight Training for Older Adults. Six-week class starts Tuesday, May 17 or Wednesday, May 18.

- Many of the more than 70 drop-in fitness classes every week are specifically designed for older adults: Check out Be Fit Age Well, Fit 'n Fab., and our numerous yoga options. Free for members, drop-in fee for non-members. See the Drop-In Fitness schedule at www.tricocentre.ca under the Schedules tab or pick up a copy at Guest Services.

- Drop-in Pickleball is offered several times a week. Check out the Drop-In Gym schedule (available on the website or at Guest Services.) Free for members or drop-in fee for non-members.

Spring Activities for Families, Children, Youth

- Check out our Summer Day Camps for ages 3 to 14 years – registration now on.
- Lots of Drop-Ins: See the Drop-In Gym schedule for drop-in gym, Drop-In Playtime, Drop-In Gymnastics, youth drop-in gym, and more. See the Drop-In Arena schedule for leisure skate, adult shinny, youth shinny, women's shinny, and stick & puck. Free for members. Fee for non-members.

Trico Centre is located at 11150 Bonaventure Drive SE. Residents of partnered communities' pay 20% less for memberships than those who reside outside partnered communities. Phone: 403-278-7542 or see www.tricocentre.ca to find out more.

IN & AROUND CALGARY

Spring Cleaning Made Simple

As you are doing your spring cleaning, be sure to find the right place for all your unwanted stuff from around the house, yard and garage.

By disposing of your materials the right way, you'll keep unnecessary items out of the landfill and give a second life to materials that can be reused, recycled or composted.

Keep your spring cleaning simple with help from these City programs and services:

Spring Yard Waste landfill drop-off

Until May 29, take your yard waste to any City of Calgary landfill for free composting.

Electronics recycling depots

There are several locations around the city to take your old electronics for recycling.

Household hazardous waste drop-off

Safely dispose of old paints and stains, pressurized tanks, cleaning products and more. Drop-offs are located at City of Calgary landfills and designated fire halls.

Community cleanups

Over 100 community cleanups will take place from May to September. Check with your community association to find out when and what items are accepted.

Visit calgary.ca/springcleaning for more details, locations and hours on the above programs.

Get Out and Walk!

A message from the Federation of Calgary Communities

May is a great time for getting out into your community! Walking has many benefits – getting to know your neighbours, know what is happening around you, fresh air and exercise.

Here are some safety tips for walking in and around your community:

1. Tell someone where you are going, which route you are taking, and when you will be back.
2. Be aware of your surroundings.
3. Listen to your instincts. Something that doesn't look or seem right probably isn't.
4. Walk facing the traffic.
5. Stay away from shrubbery, darkened doorways, and alleys.
6. Avoid using headphones so you are aware of the sounds around you.
7. Wear colours that are bright and reflect light.
8. Walk in well-lit areas.
9. Bring a friend or your dog with you for company.
10. Have fun!

For more information on walking alone or starting a community walking group, please check out our walking guide resource called Around The Block: Let's Walk! You can find the walking guide on the Federation of Calgary Communities website www.calgarycommunities.com.

Insects & Technology

The brilliant color on the wings of the butterfly some birds like the peacock have been the inspiration for a new technology that will render crystal clear images on screens, no matter what the lighting.

FENG SHUI

Barbara Shorrock

Feng Shui is on my mind again. Perhaps it is because of the “clutter” thing. Maybe because winter causes us to look more inside our homes than outside. Whatever the reason, this is a good time of year to review some Feng Shui principles. There are, of course, far too many to cover in a short article, but let’s focus on just a couple.

We’ll get the “**clutter**” thing out of the way first, excuse the play on words. Many of us love to decorate our homes, both inside and out. We are well past the Christmas season, with all its colour and beauty and significant things. By spring, this season is safely back in its boxes in the basement. Spring is upon us and time to be ruthless with the other “stuff”. If you don’t love it, need it, use it, or wear it, get rid of it. Give it to charity, sell it, pass it on to someone who will love it, or throw it out. The principle is simple; the action not so easy. So take one room at a time and remember that Feng Shui says that everything has chi or energy. Too many things create chaos in the energy field, and our life can reflect this chaos. Here is a good place to start - hang a wind chime near your front door and remove absolutely all clutter from the entry to your home (inside and out).

Living things have their own **chi**, and healthy house plants are carriers of vital energy and add life to our homes. They also provide a benevolent cleaning of the air by absorbing carbon dioxide and giving off oxygen. Plants with a soft graceful appearance are preferred to sharp spiky ones. If you are fond of cactus and their cousins, group them together with other friendlier va-

rieties, and away from the people places in the house. Fresh flowers also add colour and sensuality to a room. They elevate the mood and perfume the air. Dried flowers are an alternative that some people like, but their life isn’t as long as you might think. In fact, it is believed they lose their vitality after a mere three or four months, and many Feng Shui practitioners advise against them. Dead flowers can actually deplete the energy in a space, rather than enhance it.

Pets are natural batteries of chi, and they bring the loving spirit out in just about anyone. It is well known that visiting pets enhance the well-being of residents of long term care and retirement homes, and we intuitively understand that a clean and healthy pet contributes to the energy of a home.

Flowers Story

A client bought a new home and her real estate agent sent flowers to mark the occasion. The flowers arrived at her home and the card said “Rest in Peace”. The owner was dismayed and called the florist to complain. After he learned of the obvious mistake, the florist said, “Madam, I am really sorry for the mistake but rather than getting upset you should imagine this: somewhere there is a funeral taking place today, and they have flowers with a note saying “Congratulations on your new home”.

Barbara Shorrock is a writer, reader, traveler, ESL coach, and avid gardener. You can find her at the Queensland Garden Club the first Wednesday of most months.

IN & AROUND CALGARY

Don’t forget basics of river safety

With warmer weather on the horizon, make sure everyone has fun and stays safe by remembering to have the proper knowledge and equipment needed for boating, rafting or paddling on Calgary’s rivers.

The Calgary Partners for Water Safety, a coalition of the Calgary Fire Department, Calgary Police Services, Calgary Community Standards and Recreation, want to make sure citizens know the basics of water and river safety.

“Where there is water, there is risk, so we want to remind anyone planning to boat or raft on Calgary rivers or waterways, to always wear a properly fitting life jacket,” says Carol Henke, Public Information Officer for the Fire Department. “Not only is this a bylaw, but it can also save your life.”

Anyone considering going on the Bow or Elbow Rivers as well as any Calgary waterways, should always SCOUT, ASSESS and DECIDE from shore, before going on the water. SCOUT the river for potential hazards and check the weather, water temperature and visibility. ASSESS the level of danger. Check if there are advisories in effect and assess the swimming and paddling skills of your crew. DECIDE if it is safe to raft or boat.

“You should always be alert when boating or rafting, especially on Calgary’s rivers which can be fast moving and constantly changing due to weather and water conditions, and refrain from drinking alcohol. Being intoxicated while on the water is illegal as well as a bad decision,” says Staff Sergeant Kyle Grant, Calgary Police Service.

Before planning to go on Calgary rivers always check the water and weather conditions as well as visit www.calgary.ca/riversafety to learn about any river safety advisories.

Subsidies are available for City services

Need help accessing City of Calgary programs, services or facilities? The City has several programs that are offered at a subsidized rate for Calgarians who may have trouble affording them. The new Fair Entry process makes applying for fee subsidized City-services easier.

One application allows Calgarians to have their income level assessed for several subsidy programs and services. Apply for:

- 1. Calgary Transit Low-Income Transit Pass Program
- 2. Recreation Fee Assistance Program
- 3. Property Tax Assistance Program
- 4. No Cost Spay/Neuter Program
- 5. Seniors Services Home Maintenance

For more information or to apply, visit calgary.ca/fairentry.

HERO

Alberta Guide Dog Services

Alberta Guide Dog Services is seeking volunteer Puppy Trainers to provide loving homes to puppies training to be Guide Dogs (for blind or visually impaired individuals) and Autism Support Dogs (for children with moderate to severe autism and their families). This is a 24/7 commitment that involves providing our pups with basic obedience and socialization skills, from the time they are 7-8 weeks to 14-18 months old. Through scheduled visits and obedience classes, as well as guidance from a Puppy Raising Supervisor and advice from existing volunteers, you will have a terrific support system throughout this very rewarding experience. Volunteers must be available during the day. We provide food, vet care and other basic necessities for the pup. If you are interested in raising a puppy that could grow up to change someone's life, please call Sandra at 403-616-3228 or email sandra.cramer@albertaguidedog.com.

Your child's summer reading plan

It's never too early to think about what your child might read during the summer break. Reading over the summer not only improves children's literacy and language skills but also prevents what is known as the 'summer slide'—a regression in reading ability that can occur when children have an extended break from school.

How to help your child:

- Children need access to books and other print materials to help them become consistent readers. Make books and magazines available throughout your home (or in the car on road trips) and utilize your public library!
- Even reading just six books over the summer holidays can help your child maintain or improve their reading level.
- Children need books that are "just right"—not too easy and not too hard. Let your child choose what they want to read. As they fall in love with books, then you can help them discover more books!

Ways to make reading fun this summer:

- Get involved with your child's reading. Consider a family book club or read your child's book along with them and have conversations about the characters and plot. Read aloud a book above their reading level too—to build vocabulary and critical thinking.
- If you are taking a vacation or visiting family, involve your child in your on-line research and vacation planning; give them an attractive journal so they can write or draw about each day's fun and experiences.
- Does your child have a hobby, sport or interest they will be involved in during the summer? If so, build reading opportunities around this as they research to start a collection, read to build skills or navigate instructions.

The **CBC Calgary Reads Big Book Sale** runs from May 13 to 15, 2016. This is Calgary Reads' signature fundraising event. With children's books starting at just \$1, the Book Sale is a great time to stock up on summer reading for the entire family, keep books in circulation locally and to support our work to help children read with confidence and joy! Find full event details on our website www.calgaryreads.com.

Living the Dream Lakefront
in Auburn Bay

\$1,625,000

113 Auburn Shores Ld SE

A stunning, custom lakefront home, with your own private dock in the amazing lake community of Auburn Bay!

Only 2 years new, this home has a spectacular location on a quiet cul de sac with a sunny west yard and mountain views. Only steps to the tennis courts, community centre & all it has to offer.

Open concept home with gorgeous tiger hardwood floors on both main and upper levels, 9 foot ceilings on the main floor and a fantastic open kitchen.

Do you want to play better golf in 2016?

Routine and structure (with a dabble of spontaneity!) is important in our lives. But did you know that having a strong routine is also important in the game of golf? For the best players in the world and for the rest of us, having strong routines are important when you are practicing as well as when you are playing and is necessary to perform at your best, regardless of your ability. Having a strong “pre-shot routine” and doing it all the time, the same way all the time develops consistency ... through repetition. It also benefits you by mentally placing no more importance on any 1 shot, whether it be a practice shot or a shot during a game. By making all golf shots equal mentally, you tend not to succumb to pressure situations like hitting it over the lake, etc. You should perform your pre-shot routine always, whether you are hitting your driver, 7 iron, chipping or putting. It is ok if your putting routine isn't exactly the same as your full swing routine. In fact, I suggest you have a full swing routine, a chipping/pitching routine and a putting routine. These three different areas of the game should have specific routines but are still similar in nature. It is also ok if your routine is not exactly the same as someone else's as you will notice the next time you watch some professional golf on TV. Your game will improve because developing and performing your personal pre-shot routines will ensure that you are always:

1. Assessing your lie, assessing the wind conditions and direction, assessing the risk (bunkers, water, trees, etc.), assessing the yardage, etc.

2. Choosing the best club selection based upon these assessments.
3. Taking one or two practice swings with the target in mind and having positive imagery.
4. Starting from behind the ball prior to setting up.
5. Aiming the clubface first, then positioning your feet and the rest of your body.
6. Staring at the target and only “glancing” at the ball so your mind is always focused more on the target.
7. Having no more than one or two swing thoughts just prior to initiating the swing such as “full turn back and finish in balance”
8. Perform the shot, assess both the swing/stroke (in particular your balance and finish position) and your result.
9. Finally, and most importantly, having a good routine will ensure you are focused on your routine, your target and only one (two at most) swing thoughts. You want no mechanics in your mind when attempting to hit a shot. Mechanics are developed during specific and focused practice sessions and through drills. You want to play the game more with your instincts and by feel while keeping your mechanics on “auto pilot”.

Check out these two links to reinforce these ideas and you will soon see better results out there on the links!

IN & AROUND CALGARY

Planters are NOT Ashtrays!

A May safety tip from your Calgary Fire Department:

Today's potting soils contain large volumes of peat moss. When peat moss gets too dry, it becomes highly flammable. On top of that, you'll often find shredded wood, bark, Styrofoam, vermiculite, and fertilizer in potting mix. Like peat moss, all of these ingredients ignite easily under dry conditions.

Over the past number of years we have received numerous 911 calls from citizens who have witnessed potting soil fires on the exterior of homes. These fires are typically attributed the careless disposal of smoking materials.

If any of your friends or family smoke, ensure that you have an appropriate, non-combustible container to place the cigarette butt in. Cigarette butts that have been disposed of in a planter can smoulder for hours and may cause a fire when you least expect it...possibly when you're asleep!

A few simple precautions will help to keep your home safe:

- Do not butt out cigarettes in **any** potted planters
- Make sure smokers have a safe place to dispose of their butts, indoors and outdoors, so they aren't tempted to use your pot of geraniums instead.
- Keep potting soil and potted plants away from other combustible materials such as firewood, stacks of old newspapers, aerosols, paint solvents, gasoline and cleaning products.
- Make sure the soil around your potted plants stays moist. Keep in mind that the soil in pots dries out more quickly than soil in garden beds, so plan on more frequent watering.

Did you know? Our engines carry 550 gallons of water for immediate fire attack, as well as 30 gallons of foam for flammable liquid fires.

Important Information for Calgary Homeowners

Are you a new homeowner? When your home is built, City of Calgary inspectors ensure it is safe and meets Alberta's safety codes but a technically-sound building depends on many factors beyond following building regulations.

As a homeowner, you should ask many questions about the quality, safety and bylaw rules about your home before you move in.

The City's new web guide for Calgarians offers tips and important information about home maintenance, renovations, inspections, development rules and more. Visit calgary.ca/myhome.

City of Calgary Map Gallery

The Official City of Calgary Map Gallery is a collection of online maps that show locations and information for City parks, recreation centers, flood recovery efforts, drop-off locations, landfills and much more. Based on citizen feedback over the last several years, this collection of maps is now organized by categories, allowing easy navigation throughout the gallery. In addition, we've improved functionality of our maps by hosting multiple custom-made maps instead of only one generic map. There are over 30 maps available in the gallery, and each tells its own customized story. There is much information to discover in The City of Calgary Map Gallery, available from your personal computer or mobile device.

To use the Map Gallery, simply go to calgary.ca and click on the map link from the home page. Browse through the several categories available, and then click on the map of your choice.

See what services are available in your community or take the Historical Downtown Calgary Walking Tour – the Map Gallery has it all.

Walking the Walk

I am a big fan of local. Eating local, shopping local, playing local.

Luckily for me, some of my favourite things are right in my neighbourhood.

So I walk. Walking is another thing I'm a big fan of.

Admittedly not an early adopter, I am also a recent convert to movement tracking technology. This means I can count the number of steps I take in a day. This is a really good indication of how much you move and once you keep track, you may be shocked at how little you walk in a day.

The usual recommendation is 10,000 steps a day which is more than most of us do. Once you take the time to count your steps, the question is; is it necessary to move that much?

Many people think so and I personally think it is a good goal, although one that you may need to work up to slowly. I don't view walking as 'exercise'. As movement specialist Katy Bowman says, "Walking is a superfood. It's the defining movement of a human." Walking has the power to soothe the mind and clear the head. Plus, as we age, mobility itself becomes more important. 10,000 steps seems like a lot, but you can be sure it will pay off in the long run.

I live in the Haysboro area I have taken to walking further and further in my daily routine. It is not inner city where everything is around the corner, but that works in favour of my step count. Where I used to drive, now I try to walk. Groceries, clothing, banking - it's all within reach. It has improved my wellbeing and it makes me so happy to support my neighbours and my local economy.

Buying Canadian makes good sense now and it might even lead to better health!

Kathy Dodd teaches yoga locally in Haysboro and leads yoga retreats in the Canadian Rockies and elsewhere.

Getting a tax refund? What now?

Suzanne Smith-Demers – Consultant

If you are claiming a tax refund this year, your next decision is what you should do with it. Here are six ways to make it benefit your financial future:

1. Immediately use your refund to make your 2016 Registered Retirement Savings Plan (RRSP) contribution and you'll get the benefit of nearly an extra year of potential long-term tax-deferred growth, plus a tax deduction against your 2016 income.
2. Contribute to investments held in a Tax-Free Savings Account (TFSA). You will not be taxed on the income generated by these investments and you can make tax-free withdrawals for any purpose at any time.
3. Invest it. If your RRSP and TFSA are topped up, consider adding your refund to your non-registered investments. A tax-efficient strategy is to hold stocks and equity based mutual funds outside of an RRSP or TFSA because these types of investments are taxed using a more favourable capital gain income inclusion rate plus dividends from many Canadian corporations are eligible for the dividend tax credit.
4. Set up a Registered Education Savings Plan (RESP) to fund your children's future education costs. Contributions to investments within an RESP can grow tax-deferred and they may qualify for Canadian Education Savings Grants (CESG) of up to 20% of your contributions.
5. Pay down costly, high-interest credit debt and then pay down non-deductible debt such as your mortgage – a single prepayment could potentially save hundreds, even thousands of dollars in interest payments.
6. If your refund is large, consider parking that cash in a short-term investment that you can access without penalty. That way, you'll have a ready source of money for a rainy day.

Tax refunds are nice...make sure they are used to enhance your long term financial growth.

The Feline Mystique

I first put this article together nine years ago. In the spirit of laughter relieving all our worries, I want to share it with our readers again. Many of these quotes come from an article I came across by the humorist William J. Thomas, a collection of quotations about the cat. I have to share some of these brilliant insights into the creature known as the cat, as "cat" is a far too trivial word for the emotions and characteristics this animal evokes in my mind. For example "The phrase 'domesticated cat' is an oxymoron" (George Will). Or "A god among creatures. Yet also a stray like me" (Tony Ross).

Some quotes reflect on a cat's attitude towards us. "To a cat, human beings are an inferior, servile race, always to be kept in their places, with occasional rewards if they perform well. To love a cat is uphill work, and therefore, very rewarding" (Haskel Frankel). "Cats always know whether people like or dislike them. They do not always care enough to do anything about it" (Winifred Carriere). "Cat: a pygmy lion who loves mice, hates dogs, and patronizes human beings" (Oliver Herford).

Other quotes revel in the cat's beauty and femininity. "Every cat is really the most beautiful woman in the room" (E.V. Lucas). Carol Lawrence says "They're the most graceful, sinuous, sexy, truly sensuous creatures in the world". My absolute favorite reflection by Robert Heinlein "Women and cats will do as they please, and men and dogs should relax and get used to the idea".

Cat, a word synonymous with independence. "A cat is there when you call her - if she doesn't have something

better to do" (Bill Adler). "Cats know how to obtain food without labour, shelter without confinement, and love without penalties" (W.L. George).

We all know cats are smart. Hippolyte Taine said "I have studied many philosophers and many cats. The wisdom of cats is infinitely superior". Carl Van Vechten noted "The cat seldom interferes with other people's rights. His intelligence keeps him from doing many of the fool things that complicate life". I agree with them and H.G. Frommer's observation "Quirky are cats, independent and very, very smart. And clever about being smart. The smart cat doesn't let on that he is".

I would like to leave you with three final observations on our feline friends. All completely different viewpoints, but all very, very true. Elizabeth Peters declared "Cats refuse to take the blame for anything – including their own sins". Mark Twain wrote "If man could be crossed with a cat, it would improve man but deteriorate the cat". And finally, "The little furry buggers are just deep, deep wells you throw all your emotions into (Bruce Schimmel)".

If you have a topic you would like me to cover in your community newsletter please forward it to the publisher to pass on to me. For the record, if you asked this veterinarian if I prefer cats or dogs, I am unable to answer, but I have never seen a healthy feline canine relationship in which the cat comes out second.

Jennifer L. Scott B.Sc., D.V.M.

Muskrats Hardy Little Creatures

The muskrat (*Ondatra zibeticus*) is a fairly large rodent which has adapted to life in and around water. Their name comes from their two musk (anal) scent glands, the odour used in communication, especially during breeding season. Muskrats are found in North American wetlands and waterways and are considered to be an important creature in their freshwater environments.

These animals have a round, portly body covered with rich waterproof fur made up of a short dense silky under coat and a longer, coarse glossy guard coat. Their fur covers small ears and provides buoyancy in the water. Fur colour ranges from a dark brown head to a light grey belly. Their feet are mostly hairless; the hind feet acting like paddles during swimming and described as semi-webbed, with the four longest toes of each foot having a fringe of specialized hairs along each side, giving the foot a paddle like effect in use. The front feet are used like hands to build lodges, hold food and dig burrows and channels. There are five toes on all feet but the inner toes of front feet are small so rarely show in tracks. Full grown large adults can weigh from 1 – 2 kgs (2 – 5 lbs) and are up to 60 cm (24 in) long (including the tail). Their tail is slender, flattened vertically (to act as a rudder when swimming) and covered with scaly skin to protect it from damaging easily. The muskrat has special teeth that protrude ahead of the cheeks and lips, which can close behind them, permitting the animal to

chew on stems and roots under water “with its mouth closed.” Its four front teeth are chisel like (two upper, two lower incisors), each up to 2 cm long, used for cutting stems and roots of plants.

Muskrats typically live in freshwater marshes, marshy areas of lakes, slow-moving streams, dugouts, ponds, and watery areas controlled by beaver dams. The water must be deep enough to not freeze to the bottom during winter, but shallow enough to allow for the growth of aquatic vegetation. Areas with good food sources such as bulrushes, cattails, pondweeds, or sedges are preferred.

Muskrat homes are compact mounds of partially dried and decayed plant material scattered among cattails, reeds or bulrushes, looking much like dead heaps of plants. If these materials are not available, muskrats dig burrows in firm banks of mossy soil or clay. They still need quick access to deep water for escape from predators and food access in the winter. Their construction of open-water canals through reeds, and floating houses of aquatic vegetation, creates habitats for many species of waterfowl and aquatic plants which could not survive among dense areas of cattail and sedges.

After freeze up muskrats chew through the ice, and push up plant matter to cover the hole with a dome to make a miniature lodge, which is used as a feeding station and resting place when searching for food underwater. They can remain underwater up to 15 minutes by reducing their heart rate and relaxing their muscles when submerged, thus reducing oxygen use by their body.

What’s unusual about the muskrat?

- They are more widely dispersed across North American (north to south, east to west) than any other mammal.
- They were introduced to Europe in 1905 and are now common there too.
- If normal plant food is not available, and animal food is abundant, they are known to become carnivorous (eating fish, frogs, clams)!
- Numbers decrease dramatically every 7 to 10 years. This is believed to be the result of cyclical health declines, deaths and reproductive failure.
- Muskrats appear to thrive even when harvested heavily for fur, impacted by agricultural draining of wetlands and increases in industrial activity! They can even adapt to brackish (salty) water. Hardy little creatures aren’t they?

If you find an injured or orphaned muskrat, or other wild animal or bird, please contact the Calgary Wildlife Rehabilitation Society for further instructions.

Friends of Fish Creek

www.friendsoffishcreek.org

Run for Fish Creek in the Scotiabank Charity Challenge! Sunday May 29

If you share our vision of a sustainable Fish Creek Provincial Park, we invite you to take steps towards preserving this amazing natural resource. Help the Friends raise \$10,000 to support conservation and community outreach activities in Fish Creek Provincial Park! Whether you live near Fish Creek, enjoy running, walking, or cycling here, or are simply interested in the long term sustainability of this park, you can run or walk for Fish Creek as part of the Scotiabank Charity Challenge on Sunday, May 29. You don’t have to be an athlete to join. All you need is a passion for Fish Creek Provincial Park because that’s what unites us as a team and carries us all over the finish line!

A Journey through the Mountains and Meadows of Kananaskis

Wednesday, May 25, 2016 — 7:00pm – 8:00pm

Fish Creek Environmental Learning Centre, Shannon Terrace, Fish Creek Provincial Park
Presented by John McFaul, Professional Hiking Guide and Owner of Alpenglow Nature Hikes

Kananaskis Country has an abundance of breathtaking hiking trails that offer a truly unique way to explore the natural wonders of this region. Discover, or revisit, the high alpine meadows of Plateau Mountain, swathed in beautiful highland flowers like moss campion. Explore the fragrant pine/aspen woods of Jumping Pound Creek that seem to reverberate with the drumming of the rough grouse. Gaze upon sparkling mountain tarns ringed with golden larch like Chester Lake, and be dazzled by the sunny meadows of glacier lilies treaded by grizzly bears. Join John McFaul of Alpenglow Nature Hikes for a virtual hike through the majestic mountains and meadows of Kananaskis Country.

Mom in the Fast Lane

Elisabeth Fayt

How often must something happen, before it occurs to you?

A few years ago, I was out running errands with my son who was four at the time. I realized I was running late for a meeting and there was no way I would make it at the pace we were going, so I decided to play a little game with him. I said, "Hey, let's have a race and see who can run the fastest" and we both started to run. After a few seconds, he stopped dead in his tracks and said "Mom, why are we racing?"

It was like the whole planet stopped whirling in space at that moment. I bent down to his eye level and responded "Good question, we're not going to race anymore." Without another word, we casually continued at our normal pace and arrived a half hour late for my meeting, which was irrelevant, as the other person had also been running late. She had not even arrived yet!

The experience had a profound effect on me. What came to light was that I had been sporting a pattern of rushing, of racing the clock and packing too many commitments into a small space of time. It clearly wasn't serving me well.

How often did this happen, before it occurred to me? I'd hate to count, but it definitely occurred to me that day.

As May is the month we celebrate Moms, this is a call-out to all Moms living in the fast lane. Slow down and take time to savour each moment. Be present with your children. Bend down to their eye level and give them your full attention. The whole planet will stop whirling in space. You won't miss anything. Trust me, I know from experience.

Snacks for Healthy Eyes

Canadian Association of Optometrists

Eat your leafy greens – Fresh spinach and kale are loaded with two antioxidants called lutein and zeaxanthin. These antioxidants help protect against the damaging effects of UV rays – pack an extra-large salad on those sunny days!

Fruits and veggies – Fill your lunch bag with colourful Vitamin C rich foods, such as grapefruit, strawberries, bell peppers and broccoli. Vitamin C is another vitamin that acts as an antioxidant by helping to absorb some of harmful rays generated by the sun.

Hummus – Enjoy some hummus with your veggies! Chickpeas, as well as other legumes, contain Zinc which helps your liver release and drive Vitamin A to the retina to produce melanin – melanin helps protect your eyes from ultraviolet light.

Fish – Most know that Omega 3 fats have many disease fighting powers, but did you know that they can also help protect against age-related macular degeneration and dry eye? Cook up your favourite salmon salad recipe, or order some sushi to-go.

Think Orange – Carrots, yams and sweet potato are packed with beta-carotene, an antioxidant that can help reduce the risk of age-related macular degeneration and cataracts.

Use leftover turkey – Planning a picnic? Pack your sandwiches full of this zinc and niacin filled protein. In addition to helping fill your zinc quota for the day, turkey contains b-vitamin niacin, which can help protect against cataracts.

Healthy Posture Improves Brain Function

Dr. Alma Nenshi, Family Chiropractor

Nobel Prize recipient Dr. Roger Sperry said that the spine is the motor that drives the brain. According to his research, "90% of the stimulation and nutrition to the brain is generated by the movement of the spine." He goes on to state that only 10% of our brain's energy goes to thinking, metabolism, immunity and healing because 90% goes into processing and maintaining the body's relationship with gravity, ie. posture.

How is the spine the motor of the brain?

The spine houses a delicate system of nerves bundled together forming the spinal cord, that relay information to and from the brain and body. This highway of communication must transmit electrical signals both fast and accurately in order to allow each person the ability to control all the functions of the body while adapting along the way for external and internal stresses. Imagine listening to a beautiful symphony. Now imagine what would happen if each person was to play their instrument however they like. There would be disharmony without a conductor. This is what happens when there is a functional disconnect of the brain and nerves with the organs and systems they supply. There is dysfunction or disease of the body.

The implications of Dr. Sperry's work are far reaching. It supports that if you want to increase your energy, heal your body, improve your intelligence, fix your symptom, whatever it is that you want to control, it is within your personal reach. You can stimulate 90% of your brain by movement in your spine! Become more physically active, improve your posture and get regular spinal check ups to make sure the joints in your spine that feed and stimulate your brain are working at their best.

The facet joints in the neck (joints that connect the bones in the spine) contain the largest concentration of receptor cells that fire signals to the brain. But with stress from sedentary lifestyles, long hours at a computer, forward head posture, spinal degeneration, poor diet, unhealthy emotions, traumas and arthritis and whatever else you want to throw into this mix, is it a wonder why so many worry about how their brain and bodies will function and if they will age gracefully. It's like driving on Deerfoot Trail wanting to go the speed limit but being held back in traffic. You know your health potential, you just aren't able to clear the traffic jams because of interference in the spine.

Even the slightest adjustment in your posture can impact how much stimulation is sent to the brain. Remember 90% of the function of the brain is focused on maintaining healthy posture. So if you have poor posture, how well is your brain functioning? Chiropractic care focuses on maintaining mobility in the spine, thereby enhancing brain stimulation and growth. The results are better posture, healthy functions of the body and healthy adaptation to stress be it physical, emotional, nutritional, electromagnetic, toxins or allergies and sensitivities.

You have the power within you to re-establish brain balance and neutralize stress with deep meditation, rhythmic breathing, proper exercise like walking, being in nature, belly laughter, deep delta sleep and of course, proper chiropractic care.

Engage – I Need To Hear From You Please

In April, the Progressive Conservative Caucus launched ENGAGE a new public engagement initiative. ENGAGE's purpose is to spark public conversation and to seek feedback from our most important stakeholders – you. Engage does not prescribe specific policy actions, instead it promotes dialogue through a platform for exploring answers and finding additional possibilities for a better future. Since May 5, 2015, PC Caucus members have heard from many Albertans through thousands of emails, phone calls, social media comments, and in-person conversations. They have told us that they want a government that takes care of both fiscal and social matters with equal care and attention. They want a government that is thoughtful, pragmatic, and forward-thinking and puts the interests of Albertans first. As your MLA I want to know what is important to you and I want to hear your ideas. Our journey to build a stronger province depends on us working together. I encourage you to use ENGAGE as an instrument to provide your feedback. www.abpcmla.ca/engage

The 4 Billion Dollar Challenge

Through ENGAGE, the PC Caucus challenges the Alberta government to find \$4 billion in operational savings over two years. We believe these savings can be found by streamlining administrative process, consolidating corporate services across government and improving efficiency by as little as one per cent in key areas. Albertans have seen no effort from this government to control spending. I believe that if small savings across government are found now, Alberta will avoid having to make deep cuts down the road when accumulating debt becomes unmanageable.

McKenzie Highlands School

Inverness Park SE and McKenzie Towne Drive SE. Anticipated opening January 2017 for 900 students. School principal appointed. www.cbe.ab.ca/schools/building-and-modernizing-schools/Pages/mckenzie-towne-middle-school.aspx

Keeping in Contact

Please continue to stay in touch with me on issues that affect you and your family. As your MLA, I am your voice in the Alberta Legislature and I am here to help you. Please contact me or my assistant Donna Elms, at the Calgary Hays Constituency Office.

Four Tooth Brushing Myths

Stephanie McIntyre

You know you're supposed to brush your teeth, but how and how often? Make sure you don't fall into these common tooth-brushing myths.

Myth 1: Brushing Bleeding Gums is Bad

Sometimes when you're brushing or flossing your teeth, you may notice blood in your saliva when you spit. Does this mean you should stop brushing to give them time to heal? Not necessarily. Gum bleeding is a sign that you may be experiencing gingivitis or other gum disease. This is caused by plaque build-up, which is the result of insufficient brushing and flossing. So when you see bleeding, that means you need to brush *more*, not less. If the bleeding persists, you may need to see your dentist and/or get a professional cleaning. If your gums are sensitive, use a soft toothbrush on an angle and don't brush too vigorously. Make sure to brush your gums and tongue as well as your teeth.

Myth 2: The dentist won't notice if I only brush before my dental appointment

Too often we forget to do our proper daily hygiene until just a few days before our dental appointment, when

suddenly out come the brushes and floss. Maybe if you brush enough in the time leading up to the appointment, your dentist won't notice that you just started? Unfortunately, your dentist *will* notice, since there will still be a build-up of plaque or tartar. So, keep up that two minutes twice-daily habit and impress your dentist next visit!

Myth 3: More brushing is always better

Ok so we just said that you should brush regularly, even if your gums are bleeding...but over-brushing can be a problem too. Toothpaste is abrasive, and if you brush too much it could wear down enamel. Don't eat too much sugary food that stays stuck in your teeth, drink plenty of water, and stick with twice a day!

Myth 4: You should brush right after eating

While it's true you should brush after meals, brushing too soon post-meal can hurt more than it helps. Particularly after eating acidic foods like oranges, your tooth enamel is often soft. Wait half an hour so that it has time to harden up again before brushing.

Animal Trivia

Bats are the only mammals that can fly.

Friends and neighbours,

Our government has launched a review of Workers Compensation Board. We are committed to making sure the WCB system provides fair compensation and meaningful rehabilitation and that the system is sustainable and affordable. It's been more than 15 years since the last WCB review.

An independent three-member panel will conduct a formal review of the workers' compensation system.

The review will examine the:

- WCB's governance and effectiveness
- principles of compensation
- policies of WCB including those related to privacy and confidentiality
- transparency of processes and decision-making.

This review will also include the Appeals Commission for Alberta Workers' Compensation and the Medical Panel Office. The panel is expected to provide a progress update to government in fall 2016 and a final report in spring 2017.

As part of its formal review, the panel will engage with injured workers, employers, key partners, and interested Albertans, to gain a thorough understanding of the issues. Input from these conversations will inform the panel's final report.

Opportunities to get involved will be announced over the next few months. If you are interested in participating, please visit www.alberta.ca/wcb-review.cfm for more information.

Did you know?

The Calgary Food Bank is located in Calgary-Acadia? Our office is collecting for the Calgary Food Bank and I was fortunate to receive a tour of their facilities. Established in 1982, the Calgary Food Bank is a charitable, non-profit organization dedicated to gathering and distributing quality emergency food to those in need. The Food Bank was founded by religious leaders in the community who were all collecting food and giving it to

those in need. They decided to join forces to make the most impact within their community.

The majority of people they assist are working-poor Calgarians struggling to make ends meet. The Calgary Food Bank is not a government or United Way agency. They rely solely on the generous support of our community. Over 40% of their clients are children, which is 5% higher than the national average and 1 in 9 Calgarians visited the Food Bank in 2009.

Our next Open House is on Saturday May 28 from 1:30-3:30pm. We would love to have you come and join us for a coffee and chat. Come with questions and stay for the great conversation.

As always, my staff and I are here to help and love to hear your feedback. If you need assistance accessing government programs, want some support for a community event or initiative or just want to say "Hi," you can reach us by:

Email: Calgary.Acadia@assembly.ab.ca,

Phone: 403-640-1363

Visit: #10, 8318 Fairmount Dr. SE

Office Hours: Monday 10-3, Tuesday - Friday 10-4

City of Calgary Posts Surplus in 2015

Council was recently informed of a surplus from the 2015 operating budget.

The total surplus is \$86M. Of this, \$54M in savings was found through corporate initiatives and \$32M was found through savings identified at the business unit level.

A number of key factors contributed to this surplus:

- The City decided to not fill a number of job vacancies;
- Low fuel prices made refuelling City vehicles less costly;
- Increased revenues from various fees and fines;

In June Council will decide what happens with the \$54M in savings found through corporate initiatives. The options are:

- **One-time rebate to tax payers:** Many Calgarians are hurting right now. Calgary is feeling the brunt of rising unemployment rates, and some folks are having difficulty making ends meet. In 2016 Calgarians are scheduled to see a 3.5% increase to their property taxes. Offering a one-time rebate to tax payers would nearly eliminate this increase for the following year. Each property tax bill would see a reprieve of roughly \$100 in 2017.
- **Shovel-ready infrastructure projects:** There are a number of infrastructure projects that are ready to begin construction, but do not currently have funding. \$54M in funding could certainly help kick some of these projects off. This could translate into the creation of many construction jobs in 2016 for a market that badly needs more employment opportunities.
- **City of Calgary “rainy-day” fund:** This fund is where the funds are currently sitting. The City has a fund called “the financial stability reserve (FSR). Currently this fund sits at \$374M. The City may draw on this fund during times of economic hardship to continue delivering the services Calgarians depend on.

A few thoughts on these options:

Tax Rebate

- Tough economic situation for many Calgarians
- Especially difficult for folks on EI or fixed incomes
- Relief would be a one-time rebate, but my hope would be that efficiencies will also be found in future years
- Hopefully by 2018 the local economy begins to show sounds of improvement

Infrastructure

- Good time to build infrastructure: availability of construction labour, lower costs, low interest rates
- Spending on projects could provide savings in the long run
- \$54M could fund several projects that could begin construction in 2016

FSR

- This is The City’s “rainy-day fund”
- I would argue that it is currently raining and adding to this fund would not be the best use of tax dollars at this time

Let’s Hear From Calgarians

These funds belong to tax payers. While your elected official can share a number of ideas of what could be done, your voices must be at the table for this important decision.

I look forward to Council’s debate on what to do with the surplus.

I turn the question over to Calgarians: What would you like The City to do?

Coffee With Your Councillor

Over the next number of months I will be hosting a series of small open houses. Ward 12 residents are welcome to join me for a cup of coffee to discuss issues that matter to them. Here is the 2016 schedule for Coffee With Your Councillor:

- **Tuesday, June 21st – 7:30-8:30 pm. New Brighton Residents Association: 2 New Brighton Drive SE**
- **Tuesday, September 27th – 7:00-8:30 pm. Auburn Bay Residents Association: 200 Auburn Bay Boulevard SE**
- **Tuesday, November 29th – 7:00-8:30 pm. Cranston Residents Association: 11 Cranarch Road SE**
