2016 has been a huge year for Ward 12. Over the last number of years I have heard from many of you that southeast Calgary seems to be lagging behind when it comes to recreation centres, transportation options and many other amenities that help build more complete communities. Over the last few years we have done some remarkable work to secure funding to get much needed investments in our communities. In 2016 we have seen the products of some of this hard work with the opening of a number of new recreation facilities and more significant progress on the Green Line. It is certainly an exciting time to live in southeast Calgary!

Green Line Rolls Along

At the beginning of October, Council approved the centre city alignment for the Green Line. The overwhelming recommendation from a public stakeholder and technical standpoint was the tunnel option under the downtown. The tunnel will begin at the edge of the Beltline and extend north of 16th Ave N. With an estimated price tag of \$1.95B, the tunnel option is the most expensive option to get through the inner city.

Most expensive option does not always mean best option, especially when it comes to public projects. But in the case of the centre city Green Line alignment, I believe the tunnel is far and away the best option. By tunneling through the downtown, we will avoid traffic disruptions and negative impacts to much of the existing infrastructure and businesses along the alignment. The Green Line is an ambitious forward looking project, and I believe this decision is not just right for Calgary today, but for generations to come.

You can keep up to date on Green Line progress at Calgary.ca/GreenLine

Coffee With the Councillor

This year my office has hosted a number of coffee meetings to discuss the municipal issues that matter to our communities. We have one more event in 2016, and this time we'll be in Cranston.
